CAMP WAR EAGLE & ADVISING
NEW STUDENT MODULES

War Eagle! Welcome to Auburn University and welcome to the start of your Camp War Eagle experience! Throughout these modules and your CWE experience, please know the staff of the First Year Experience office is available and ready to help you with any questions you may have. War Eagle!

Begin Course

We are so excited you will be joining us in the Samuel Ginn College of Engineering as a future engineering student! We look forward to meeting you at Camp War Eagle!

Once you have registered for Camp War Eagle, it is recommended you register and attend a "Get Ready for Camp" virtual session hosted by Dr. Janet Moore, Assistant Dean & Director of Student Services within the College of Engineering. This virtual event will be an opportunity for you to learn more about what you will experience this summer with regard to academic advising and course registration. Click [here](#) to register for the session.

CONNECT
the CREED

Connect the Creed, a program for incoming students aimed at enhancing specific areas of personal development that we believe are essential to successful and fulfilling professional careers and personal lives. As an incoming student, you are expected to begin your participation in Connect the Creed by completing four assessments before you attend your Camp War Eagle Session. These required assessments gauge your understanding of (1) Financial concepts, (2) Civics concepts, (3) Career Success concepts, and (4) Written Communication & Articulation concepts.

You can access the assessments by navigating below to the Connect the Creed page on Canvas:

auburn.edu/connectcreed

Once you are done with the Connect the Creed modules, please return to this Canvas course, and finish viewing the remaining CWE & Advising modules.

If you have questions about this assignment, please contact the Office of Academic Insight at connectcreed@auburn.edu.

auburn.instructure.com

Pre-Advising Form

Found in the Academic College module within the New Student Modules

The form will ask about:

- AP or IB credit earned or anticipated
- Dual enrollment credit
- Classes you are taking this summer
- Any initial questions you may have for your academic advisor

Plan about 15-20 minutes to complete the survey.

Complete this survey as soon as possible.

ALEKS Math Placement Assessment

ACT/SAT scores will no longer be considered for math placement.

Placement can be determined by:

- Credit awarded from AP/IB test scores
- College credit earned through dual enrollment or transfer credit
- ALEKS Math Placement Assessment

You should complete ALEKS at least two weeks prior to your CWE session.

- Without math credit or an ALEKS score, **a student will not be eligible to register for a math course.**

aub.ie/mathplacement

ALEKS Math Placement Assessment

ALEKS is found in AU Access under the My Academics tab.

Assessment is up to 30 questions and generally takes 60-90 minutes to complete.

aub.ie/mathplacement

ALEKS Math Placement Assessment

After the assessment, an individualized Prep and Learning Module is available to help refresh your knowledge on forgotten topics.

Students can take the ALEKS **up to 3 times**, and the **highest of the scores** will be used to determine placement. *You must wait at least 48 hours between attempts.*

aub.ie/mathplacement

AU Math Placement

AU Students Admitted in Summer/Fall 2023 or later

MATH PLACEMENT ALEKS PPL FAQs CONTACT US

For students who are admitted to Auburn in Summer/Fall 2023 or later, mathematics course placement will be determined by

ALEKS Math Placement Assessment.

ACT/SAT scores will no longer be considered.

The following additional criteria may be used for placement in mathematics courses:

- Credit awarded from AP/IB test scores,
- College credit earned through dual enrollment or transfer credit.

Incoming students must complete the ALEKS Math Placement Assessment before attending orientation. If a student does not have an ALEKS score, AP/IB credit, or dual enrollment/transfer credit, the student will not be eligible to register for a mathematics course following the orientation. Students taking ALEKS after orientation have no guarantee of a seat when trying to register for a mathematics course. If a student does not attain a score needed for placing in the mathematics course required for their major, the student will have to take the appropriate set of prerequisite courses. For specific information about various mathematics courses and CORE mathematics requirements, please refer to the Auburn Bulletin.

NOTE: If you were admitted to Auburn prior to Summer/Fall 2023, please visit aub.ie/oldmathplacement for information about mathematics course placement.

Math Placement Chart for AU Students Admitted in Summer/Fall 2023 or later

| If I have the minimum score on ALEKS PPL (Placement Assessment): | OR College Credit for: ^{**} | Then I can take: |
|--|--|---|
| Below 50% | No college credit | MATH 1000 College Algebra |
| 50% | College credit for MATH 1000 | MATH 1100 Finite Math and Applications |
| 50% | College credit for MATH 1000 | MATH 1120 Pre-Calculus Algebra |
| 64% | College credit for MATH 1120 (MTH 112 at AL 2 years) | MATH 1130 Pre-Calculus Trigonometry |
| 64% | College credit for MATH 1000 with "C" or above | MATH 1150 Pre-Calculus Algebra and Trigonometry |
| 68% | College credit for MATH 1120 or 1130 or 1150 (MTH 112 or 113 or 115 at AL 2 years) | MATH 1600 Calculus with Business Applications I |
| 78% | College credit for MATH 1130 or 1150 with "C" or above (MTH 113 or 115 at AL 2 years) | MATH 1610 Calculus I MATH 1617 Honors Calculus I |
| If I have the minimum score in Calculus AP | OR College Credit for: ^{**} | Then I can take: |
| A 3 or higher on AP Calculus AB (a score of 5 is highly recommended) | College credit for MATH 1610 with "C" or above (MTH 125 at AL 2 years) | MATH 1620 Calculus II MATH 1627 Honors Calculus II |
| A 3 or higher on AP Calculus BC (a score of 5 is highly recommended) | College credit for MATH 1620 with "C" or above (MTH 126 at AL 2 years) | MATH 2630 Calculus III MATH 2637 Honors Calculus III |
| | College credit for MATH 1620 with "C" or above (MTH 126 at AL 2 years). Co-requisite courses: MATH 2630/2637 | MATH 2650 Linear Differential Equations |

Steps To Apply

Step 3: Select your Themed First Year Seminar or Community Preferences

Learning

AU First Year Seminar & Learning Community Application

Your anticipated first semester, current college/school, and major are listed below. If any of this information is incorrect, DO NOT CONTINUE. Contact the Office of Undergraduate Admissions at 334.844.6425.

You are eligible to apply for any First Year Seminar (FYS) or Learning Community (LC) which appears in the drop-down menu in the section below. This eligibility is determined by your current major and the availability of the FYS or LC. If you do not see your desired FYS or LC, please choose an available one. If you have questions about why an FYS or LC is not listed in your drop-down menu, call us at 334.844.5721. For more information on a specific FYS or LC, please refer to our website at aub.ie/fys.

The deadline for applications is May 11, 2022.

Moreland, Megan

Entry Term: Fall 2021
College: College of Liberal Arts
Major: Psychology

GID: mgm0081
Student ID: 904009922

First Year Seminar & Learning Community Preferences (REQUIRED)

To apply for a First Year Seminar (FYS) or Learning Community (LC), use the drop-down lists below to select your preferences. You are eligible to apply for any of the FYSs or LCs that appear in the menu.

For more information on a specific FYS or LC, please refer to our website at aub.ie/fys.

YOU MUST INCLUDE A UNIQUE FIRST AND SECOND PREFERENCE IN ORDER TO SUBMIT YOUR APPLICATION. If you would like to be considered only for the FYS or LC listed as your first preference, select "ZZ-No 2nd or 3rd preferences" as your second preference. Making this selection means that you will not be considered for other FYSs or LCs.
