## Information about your college and major

M2:  
Welcome Future Engineers

We are so excited you will be joining us in the Samuel Ginn College of Engineering! We look forward to meeting you at Camp War Eagle.

## Series of assessments called Connect the Creed

# CONNECT the CREED

Connect the Creed, a program for incoming students aimed at enhancing specific areas of personal development that we believe are essential to successful and fulfilling professional careers and personal lives. As an incoming student, you are expected to begin your participation in Connect the Creed by completing five assessments before you attend your Camp War Eagle Session. This summer, you will be tasked with completing the following items for us: (1) Future Engagement & Experiences Survey, (2) Civics concepts assessment, (3) Career Success module, (4) A Ethical Reasoning Assessment, and a (5) AI Assignment.

You can access the assessments by navigating below to the Connect the Creed page on Canvas:

[auburn.edu/connectcreed](https://auburn.edu/connectcreed)

Since the Connect the Creed modules are due before your CWE session, you can continue on with the Camp War Eagle & Advising modules in this Canvas course.

If you have questions about this assignment, please contact the Office of Academic Insight at [connectcreed@auburn.edu](mailto:connectcreed@auburn.edu).

[auburn.instructure.com](https://auburn.instructure.com)

# Pre-Advising Form

---

Found in the Academic College module within the New Student Modules

The form will ask about:

- AP or IB credit earned or anticipated
- Dual enrollment credit
- Classes you are taking this summer
- Any initial questions you may have for your academic advisor

Plan about 15-20 minutes to complete the survey.

Complete this survey as soon as possible.

# ALEKS Math Placement Assessment

---

ACT/SAT scores will no longer be considered for math placement.

Placement can be determined by:

- Credit awarded from AP/IB test scores
- College credit earned through dual enrollment or transfer credit
- ALEKS Math Placement Assessment

You should complete ALEKS at least two weeks prior to your CWE session.

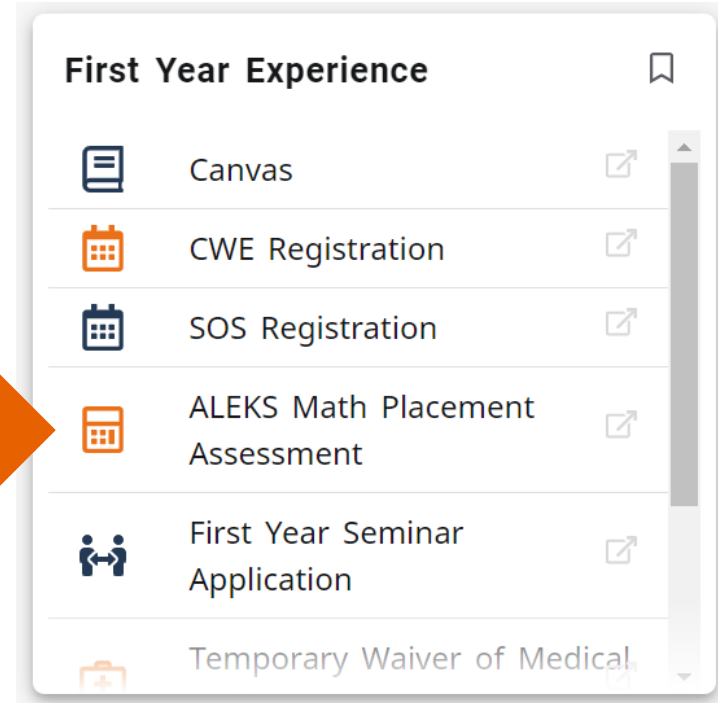

- Without math credit or an ALEKS score, **a student will not be eligible to register for a math course.**

*[aub.ie/mathplacement](http://aub.ie/mathplacement)*

# ALEKS Math Placement Assessment

ALEKS is found in AU Access on the First Year Experience card.

Assessment is up to 30 questions and generally takes 60-90 minutes to complete.

[aub.ie/mathplacement](http://aub.ie/mathplacement)

# ALEKS Math Placement Assessment

After the assessment, an individualized Prep and Learning Module is available to help refresh your knowledge on forgotten topics.

Students can take the ALEKS **up to 3 times**, and **the highest of the scores** will be used to determine placement. *You must wait at least 48 hours between attempts.*

## AU Math Placement

AU Students Admitted in Summer/Fall 2023 or later

[MATH PLACEMENT](#) [ALEKS PPL](#) [FAQS](#) [CONTACT US](#)

For students who are admitted to Auburn in Summer/Fall 2023 or later, mathematics course placement will be determined by

### ALEKS Math Placement Assessment.

ACT/SAT scores will no longer be considered.

The following additional criteria may be used for placement in mathematics courses:

- Credit awarded from AP/IB test scores,
  - College credit earned through dual enrollment or transfer credit.
- Incoming students must complete the ALEKS Math Placement Assessment before attending orientation. If a student does not have an ALEKS score, AP/IB credit, or dual enrollment/transfer credit, the student will not be eligible to register for a mathematics course following the orientation. Students taking ALEKS after orientation have no guarantee of a seat when trying to register for a mathematics course. If a student does not attain a score needed for placing in the mathematics course required for their major, the student will have to take the appropriate set of prerequisite courses. For specific information about various mathematics courses and CORE mathematics requirements, please refer to the Auburn Bulletin.

**NOTE: If you were admitted to Auburn prior to Summer/Fall 2023, please visit [aub.ie/oldmathplacement](http://aub.ie/oldmathplacement) for information about mathematics course placement.**
